EL LLORENÇ PARC DE LA MAR

Palma de Mallorca, Spain

The stay: Located in the historical district of La Calatrava, El Llorenç Parc de La Mar is a design-driven boutique hotel of just 33 rooms inspired by Old World Spain and Arabic traditions. Timeless designs with Arabic motifs run through the hotel,

creating textures and patterns for a visual feast that will be inviting to any tired soul. The use of unique colours also bring out the colourful mix of contemporary art and vintage black and white photography strewn around.

The retreat: Inspired by Mallorca's Moorish heritage, the Wellness Studio claims to be a modern version of Arab baths. The expansive spa centre is meant to be experienced throughout a full day, with various areas dedicated to different treatments. Inside the studio are treatment rooms, steam bath, sauna, jacuzzi, ice fountain and sensation showers. Then head outside for a relaxing swim at the rooftop infinity pool or take a dip in the 14m-long heated indoor pool when temperatures outside are too cold.
